Tq. Omerga Dist. Osmanabad Pin – 413606 State : Maharashtra

Evaluation of Program Outcomes and Course Outcomes

Year 2018-19

F.Y.B.A. Second Semester (B.A - Regular - P-2013) for the Oct/Nov 2018 exam event, here's the analysis:

- Total Seats Generated: 18
- Total Students Appeared in Examination: 25
- Total Passed: 17
- Total Failed (ATKT): 0
- Total Failed: 8 (Failed + Failed ATKT)
- Total Absentees: 0
- Total Results Held Back: 0
- Held Back Due to Unfair Means: 0
- Held Back Due to Missing Data: 0
- Result Explicitly Held Back: 0
- Passing Student Percentage: 68.00%

Analysis:

- Absenteeism:
 - There were no reported absentees during the examination.
- Passing Percentage:
 - The passing percentage is 68.00%, calculated as the percentage of students who passed the examination out of those who appeared.
- Failure Rate:
 - 8 students failed outright, resulting in a failure rate of 32.00%.

- Results Held Back:
 - There were no results held back, indicating that all results were declared without any delay.
- Overall Implications:
 - The passing percentage of 68.00% indicates a moderate level of success among students.
 - The absence of any results held back suggests a smooth examination process without major issues or discrepancies.
 - The failure rate of 32.00% suggests areas where academic support may be needed to improve student performance.

In summary, while the passing percentage is moderate, there is a notable failure rate among students. Further analysis could be conducted to identify specific areas of improvement to ensure the academic success of students in the F.Y.B.A. Second Semester examination for the Oct/Nov 2018 exam event.

S.Y.B.A. Fourth Semester (B.A - Regular - P-2013) for the Oct-Nov 2018 exam event, here's the analysis:

- Total Seats Generated: 7
- Total Students Appeared in Examination: 11
- Total Passed: 8
- Total Failed (ATKT): 0
- Total Failed: 2 (Failed + Failed ATKT)
- Total Absentees: 0
- Total Results Held Back: 1
- Held Back Due to Unfair Means: 1
- Held Back Due to Missing Data: 0

- Result Explicitly Held Back: 1
- Passing Student Percentage: 72.73%

Analysis:

- Absenteeism:
 - There were no reported absentees during the examination.
- Passing Percentage:
 - The passing percentage is 72.73%, calculated as the percentage of students who passed the examination out of those who appeared.
- Failure Rate:
 - 2 students failed outright, resulting in a failure rate of 18.18%.
- Results Held Back:
 - 1 result was held back, out of which 1 was explicitly held back due to unfair means.
- Overall Implications:
 - The passing percentage of 72.73% indicates a satisfactory level of success among students.
 - The absence of any reported absenteeism suggests good attendance during the examination.
 - The failure rate of 18.18% suggests areas where academic support may be needed to improve student performance.
 - The result held back due to unfair means indicates potential issues with academic integrity that need to be addressed.

In summary, while the passing percentage is satisfactory, there are areas for improvement to ensure the academic success and integrity of the examination process for the S.Y.B.A. Fourth Semester examination for the Oct-Nov 2018 exam event.

T.Y.B.A. Sixth Semester (B.A - Regular - P-2013) for the Oct/Nov 2018 exam event, here's the analysis:

- Total Seats Generated: 15
- Total Students Appeared in Examination: 17
- Total Passed: 12
- Total Failed (ATKT): 0
- Total Failed: 3 (Failed + Failed ATKT)
- Total Absentees: 0
- Total Results Held Back: 3
- Held Back Due to Unfair Means: 3
- Held Back Due to Missing Data: 0
- Result Explicitly Held Back: 0
- Passing Student Percentage: 70.59%

Analysis:

- Absenteeism:
 - There were no reported absentees during the examination.
- Passing Percentage:
 - The passing percentage is 70.59%, calculated as the percentage of students who passed the examination out of those who appeared.
- Failure Rate:
 - 3 students failed outright, resulting in a failure rate of 17.65%.
- Results Held Back:
 - 3 results were held back, out of which all were held back due to unfair means.
- Overall Implications:

- The passing percentage of 70.59% indicates a satisfactory level of success among students.
- The absence of any reported absenteeism suggests good attendance during the examination.
- The failure rate of 17.65% suggests areas where academic support may be needed to improve student performance.
- All results held back were due to unfair means, indicating potential issues with academic integrity that need to be addressed.

In summary, while the passing percentage is satisfactory, there are areas for improvement to ensure the academic success and integrity of the examination process for the T.Y.B.A. Sixth Semester examination for the Oct/Nov 2018 exam event.

F.Y.B.Sc. Second Semester (B.Sc - Regular - P-2013) for the Oct/Nov 2018 exam event, here's the analysis:

- Total Seats Generated: 43
- Total Students Appeared in Examination: 53
- Total Passed: 32
- Total Failed (ATKT): 0
- Total Failed: 21 (Failed + Failed ATKT)
- Total Absentees: 0
- Total Results Held Back: 0
- Held Back Due to Unfair Means: 0
- Held Back Due to Missing Data: 0
- Result Explicitly Held Back: 0
- Passing Student Percentage: 60.38%

Analysis:

- Absenteeism:
 - There were no reported absentees during the examination.
- Passing Percentage:
 - The passing percentage is 60.38%, calculated as the percentage of students who passed the examination out of those who appeared.
- Failure Rate:
 - 21 students failed outright, resulting in a failure rate of 39.62%.
- Results Held Back:
 - There were no results held back, indicating that all results were declared without any delay.
- Overall Implications:
 - The passing percentage of 60.38% indicates a moderate level of success among students.
 - The absence of any reported absenteeism suggests good attendance during the examination.
 - The failure rate of 39.62% suggests areas where academic support may be needed to improve student performance.

In summary, while the passing percentage is moderate, there is a notable failure rate among students. Further analysis could be conducted to identify specific areas of improvement to ensure the academic success of students in the F.Y.B.Sc. Second Semester examination for the Oct/Nov 2018 exam event.

S.Y.B.Sc. Fourth Semester (B.Sc - Regular - P-2013) for the Oct/Nov 2018 exam event, here's the analysis:

- Total Seats Generated: 19
- Total Students Appeared in Examination: 32

- Total Passed: 30
- Total Failed (ATKT): 0
- Total Failed: 2 (Failed + Failed ATKT)
- Total Absentees: 0
- Total Results Held Back: 0
- Held Back Due to Unfair Means: 0
- Held Back Due to Missing Data: 0
- Result Explicitly Held Back: 0
- Passing Student Percentage: 93.75%

Analysis:

- Absenteeism:
 - There were no reported absentees during the examination.
- Passing Percentage:
 - The passing percentage is 93.75%, calculated as the percentage of students who passed the examination out of those who appeared.
- Failure Rate:
 - 2 students failed outright, resulting in a failure rate of 6.25%.
- Results Held Back:
 - There were no results held back, indicating that all results were declared without any delay.
- Overall Implications:
 - The passing percentage of 93.75% indicates a high level of success among students.
 - The absence of any reported absenteeism suggests good attendance during the examination.

- The low failure rate of 6.25% suggests a strong performance by the students in the S.Y.B.Sc. Fourth Semester examination for the Oct/Nov 2018 exam event.

In summary, the results for the S.Y.B.Sc. Fourth Semester examination indicate a high level of academic success and integrity for the Oct/Nov 2018 exam event.

T.Y.B.Sc. Sixth Semester (B.Sc - Regular - P-2013) for the Oct/Nov 2018 exam event, here's the analysis:

- Total Seats Generated: 30
- Total Students Appeared in Examination: 46
- Total Passed: 34
- Total Failed (ATKT): 0
- Total Failed: 12 (Failed + Failed ATKT)
- Total Absentees: 0
- Total Results Held Back: 0
- Held Back Due to Unfair Means: 0
- Held Back Due to Missing Data: 0
- Result Explicitly Held Back: 0
- Passing Student Percentage: 73.91%

Analysis:

- Absenteeism:
 - There were no reported absentees during the examination.
- Passing Percentage:
 - The passing percentage is 73.91%, calculated as the percentage of students who passed the examination out of those who appeared.
- Failure Rate:

- 12 students failed outright, resulting in a failure rate of 26.09%.
- Results Held Back:
 - There were no results held back, indicating that all results were declared without any delay.
- Overall Implications:
 - The passing percentage of 73.91% indicates a moderate level of success among students.
 - The absence of any reported absenteeism suggests good attendance during the examination.
 - The failure rate of 26.09% suggests areas where academic support may be needed to improve student performance.

In summary, while the passing percentage is moderate, there is a notable failure rate among students. Further analysis could be conducted to identify specific areas of improvement to ensure the academic success of students in the T.Y.B.Sc. Sixth Semester examination for the Oct/Nov 2018 exam event.

Year 2019-20

F.Y.B.A. Second Semester exam event Mar/Apr - 2019 (B.A - Regular - P-2013)

here's a detailed analysis :

- Total Seats Generated: 44
- Total Students Appeared in Examination: 47
- Total Absentees: 2
- Total Passed: 17
- Total Failed (ATKT): 0
- Total Failed: 30
- Total Results Held Back: 31
 - Due to Unfair Means: 1
 - Due to Missing Data: 30
- Total Explicitly Held Back Results: 1
- Passing Student Percentage: 36.17%

Analysis:

- Absenteeism:
 - 2 students were absent during the examination.
- Passing Percentage:
 - The passing percentage is calculated as the percentage of students who passed the examination out of those who appeared. In this case, the passing percentage is 36.17%, which indicates that 17 out of 47 students passed the examination.
- Failure Rate:
 - Out of the students who appeared in the examination, 30 students failed.
- Results Held Back:
 - 31 results were held back, indicating issues with either unfair means or missing data.
 - 1 result was explicitly held back.
 - 30 results were held back due to missing data, which significantly affects the analysis and may indicate administrative or procedural issues.
- ATKT (Allowed to Keep Term):
 - No students were reported to have failed with ATKT, which suggests that all failures were outright failures.
- Quality of Examination Process:
 - The presence of results held back due to missing data raises concerns about the quality of the examination process and data management systems.
- Overall Implications:

- The high number of results held back due to missing data and the presence of absenteeism indicate potential administrative and procedural challenges that need to be addressed.
- There is room for improvement in ensuring the integrity and efficiency of the examination process to provide accurate and timely results to students.

In summary, while the passing percentage is relatively low, the significant number of results held back due to missing data suggests underlying issues that require attention to enhance the reliability and fairness of the examination system.

S.Y.B.A. Fourth Semester Exam Event Mar/Apr 2019 (B.A - Regular - P-2013)

here's a detailed analysis :

- Total Seats Generated: 25
- Total Students Appeared in Examination: 28
- Total Absentees: 0
- Total Passed: 13
- Total Failed (ATKT): 0
- Total Failed: 8
- Total Results Held Back: 7
 - Due to Unfair Means: 0
 - Due to Missing Data: 2
 - Explicitly Held Back: 5
- Passing Student Percentage: 46.43%

Analysis:

- Absenteeism:
 - No students were reported absent during the examination.
- Passing Percentage:
 - The passing percentage is calculated as the percentage of students who passed the examination out of those who appeared. In this case, the passing percentage is 46.43%, indicating that 13 out of 28 students passed the examination.
- Failure Rate:
 - Out of the students who appeared in the examination, 8 students failed.
- Results Held Back:
 - 7 results were held back, with 5 explicitly held back and 2 due to missing data.
 - No results were held back due to unfair means, which is a positive indicator of academic integrity.

- **ATKT (Allowed to Keep Term):**
 - No students were reported to have failed with ATKT, suggesting that all failures were outright failures.
- **Quality of Examination Process:**
 - The presence of results held back, particularly due to missing data, raises concerns about the accuracy and reliability of the examination process.
- **Overall Implications:**
 - While the passing percentage is relatively higher compared to the previous example, the number of results held back, especially those explicitly held back, suggests potential administrative or procedural issues that need to be addressed.
 - Efforts should be made to ensure the integrity and efficiency of the examination system to provide accurate and timely results to students.

In summary, while the passing percentage is moderate, the presence of results held back underscores the need for improvements in the examination process to enhance reliability and fairness.

T.Y.B.A. Sixth Semester Exam Event Mar /Apr 2019 (B.A - Regular - P-2013]

here's a detailed analysis:

- Total Seats Generated: 25
- Total Students Appeared in Examination: 26
- Total Absentees: 0
- Total Passed: 24
- Total Failed (ATKT): 0
- Total Failed: 2
- Total Results Held Back: 0
 - Due to Unfair Means: 0
 - Due to Missing Data: 0
 - Explicitly Held Back: 0
- Passing Student Percentage: 92.31%

Analysis:

- **Absenteeism:**
 - No students were reported absent during the examination.
- **Passing Percentage:**
 - The passing percentage is calculated as the percentage of students who passed the examination out of those who appeared. In this case, the passing percentage is notably high at 92.31%, indicating that 24 out of 26 students passed the examination.

- Failure Rate:
 - Out of the students who appeared in the examination, only 2 students failed.
- Results Held Back:
 - No results were held back, which is a positive indicator of the efficiency and accuracy of the examination process.
- ATKT (Allowed to Keep Term):
 - No students were reported to have failed with ATKT, indicating that all failures were outright failures.
- Quality of Examination Process:
 - The absence of results held back suggests that the examination process was conducted smoothly without any need for holding back results due to issues such as missing data or unfair means.
- Overall Implications:
 - The high passing percentage and absence of results held back reflect positively on the academic performance and the integrity of the examination process for this semester.
 - The minimal failure rate indicates that the majority of students were successful in their academic endeavors.

In summary, the T.Y.B.A. Sixth Semester results demonstrate a high level of academic success and efficiency in the examination process, with a significant majority of students passing the examination and no results being held back.

F.Y.B.Sc. Second Semester Mar /Apr 2019 (B.Sc - Regular - P-2013)

here's a detailed analysis:

- Total Seats Generated: 133
- Total Students Appeared in Examination: 136
- Total Absentees: 5
- Total Passed: 41
- Total Failed (ATKT): 0
- Total Failed: 93
- Total Results Held Back: 3
 - Due to Unfair Means: 0
 - Due to Missing Data: 0
 - Explicitly Held Back: 3
- Passing Student Percentage: 30.15%

Analysis:

- Absenteeism:
 - 5 students were reported absent during the examination.
- Passing Percentage:
 - The passing percentage is calculated as the percentage of students who passed the examination out of those who appeared. In this case, the passing percentage is relatively low at 30.15%, indicating that only 41 out of 136 students passed the examination.
- Failure Rate:
 - Out of the students who appeared in the examination, a significant number (93) failed.
- Results Held Back:
 - 3 results were held back, all of which were explicitly held back.
 - No results were held back due to unfair means or missing data.
- ATKT (Allowed to Keep Term):
 - No students were reported to have failed with ATKT, indicating that all failures were outright failures.
- Quality of Examination Process:
 - The presence of explicitly held back results suggests that there may have been specific issues with those results that required further investigation or review.
- Overall Implications:
 - The low passing percentage and high failure rate indicate significant challenges in academic performance for this semester.
 - The absence of results held back due to unfair means or missing data is a positive indicator of the integrity of the examination process.

In summary, the results for the F.Y.B.Sc. Second Semester highlight the need for academic support and intervention to improve student performance, as well as the importance of maintaining the integrity of the examination process to ensure fair evaluation and accurate results.

S. Y. B.Sc. Fourth Semester Mar /Apr 2019 (B.Sc - Regular - P-2013)

here's a detailed analysis:

- Total Seats Generated: 84
- Total Students Appeared in Examination: 89
- Total Absentees: 2
- Total Passed: 48
- Total Failed (ATKT): 0
- Total Failed: 33

- Total Results Held Back: 8
 - Due to Unfair Means: 0
 - Due to Missing Data: 0
 - Explicitly Held Back: 8
- Passing Student Percentage: 53.93%

Analysis:

- Absenteeism:
 - 2 students were reported absent during the examination.
- Passing Percentage:
 - The passing percentage is calculated as the percentage of students who passed the examination out of those who appeared. In this case, the passing percentage is 53.93%, indicating that 48 out of 89 students passed the examination.
- Failure Rate:
 - Out of the students who appeared in the examination, 33 students failed.
- Results Held Back:
 - 8 results were held back, all of which were explicitly held back.
 - No results were held back due to unfair means or missing data.
- ATKT (Allowed to Keep Term):
 - No students were reported to have failed with ATKT, indicating that all failures were outright failures.
- Quality of Examination Process:
 - The presence of explicitly held back results suggests that there may have been specific issues with those results that required further investigation or review.
- Overall Implications:
 - The passing percentage is moderate, indicating a fair number of students successfully completing the semester.
 - However, the high failure rate and the presence of results held back highlight areas where academic support and intervention may be necessary to improve student performance.
 - The absence of results held back due to unfair means or missing data is a positive indicator of the integrity of the examination process.

In summary, while a significant portion of students passed the S.Y.B.Sc. Fourth Semester examination, there is room for improvement in supporting students who failed and addressing any issues that led to results being held back.

T. Y. B.Sc. Sixth Semester Mar /Apr 2019 (B. Sc - Regular - P-2013)

here's a detailed analysis:

- Total Seats Generated: 89
- Total Students Appeared in Examination: 94
- Total Absentees: 0
- Total Passed: 52
- Total Failed (ATKT): 0
- Total Failed: 42
- Total Results Held Back: 0
 - Due to Unfair Means: 0
 - Due to Missing Data: 0
 - Explicitly Held Back: 0
- Passing Student Percentage: 55.32%

Analysis:

- Absenteeism:
 - There were no reported absentees during the examination.
- Passing Percentage:
 - The passing percentage is calculated as the percentage of students who passed the examination out of those who appeared. In this case, the passing percentage is 55.32%, indicating that 52 out of 94 students passed the examination.
- Failure Rate:
 - Out of the students who appeared in the examination, 42 students failed.
- Results Held Back:
 - There were no results held back, whether due to unfair means, missing data, or explicitly held back.
- ATKT (Allowed to Keep Term):
 - No students were reported to have failed with ATKT, indicating that all failures were outright failures.
- Quality of Examination Process:
 - The absence of results held back suggests that the examination process was conducted smoothly without any need for holding back results due to issues such as missing data or unfair means.
- Overall Implications:
 - The passing percentage is moderate, indicating that more than half of the students successfully completed the T.Y.B.Sc. Sixth Semester examination.

- However, the significant failure rate highlights areas where academic support and intervention may be necessary to improve student performance.

In summary, while the passing percentage is moderate, the high failure rate indicates the need for academic support and intervention to improve student outcomes in the T.Y.B.Sc. Sixth Semester. However, the absence of results held back suggests a smooth examination process without significant issues.

F.Y.B.A. Second Semester (B.A - Regular - P-2013)

March/April-2020

here's a detailed analysis:

- Total Seats Generated: 38
- Total Students Appeared in Examination: 46
- Total Absentees: 0
- Total Passed: 35
- Total Failed (ATKT): 0
- Total Failed: 10
- Total Results Held Back: 1
 - Due to Unfair Means: 0
 - Due to Missing Data: 0
 - Explicitly Held Back: 1
- Passing Student Percentage: 76.09%

Analysis:

- Absenteeism:
 - There were no reported absentees during the examination.
- Passing Percentage:
 - The passing percentage is calculated as the percentage of students who passed the examination out of those who appeared. In this case, the passing percentage is relatively high at 76.09%, indicating that 35 out of 46 students passed the examination.
- Failure Rate:
 - Out of the students who appeared in the examination, 10 students failed.
- Results Held Back:
 - One result was held back, explicitly. There were no results held back due to unfair means or missing data.
- ATKT (Allowed to Keep Term):
 - No students were reported to have failed with ATKT, indicating that all failures were outright failures.
- Quality of Examination Process:
 - The presence of one explicitly held back result suggests that there may have been specific issues with that result that required further investigation or review.
- Overall Implications:

- The passing percentage is relatively high, indicating a majority of students successfully completing the F.Y.B.A. Second Semester examination.
- However, the failure rate suggests areas where academic support and intervention may be necessary to improve student performance.

In summary, while the passing percentage is high, the presence of failed students and one explicitly held back result indicates areas where improvements may be needed to support student success in the F.Y.B.A. Second Semester examination for the March/April-2020 term.

S.Y.B.A. Fourth Semester (B.A - Regular - P-2013) for the March/April-2020 term, here's a detailed analysis:

- Total Seats Generated: 19
- Total Students Appeared in Examination: 24
- Total Absentees: 0
- Total Passed: 20
- Total Failed (ATKT): 0
- Total Failed: 4
- Total Results Held Back: 4
 - Due to Unfair Means: 0
 - Due to Missing Data: 4
 - Explicitly Held Back: 0
- Passing Student Percentage: 83.33%

Analysis:

- Absenteeism:
 - There were no reported absentees during the examination.
- Passing Percentage:
 - The passing percentage is calculated as the percentage of students who passed the examination out of those who appeared. In this case, the passing percentage is high at 83.33%, indicating that 20 out of 24 students passed the examination.
- Failure Rate:
 - Out of the students who appeared in the examination, 4 students failed.
- Results Held Back:
 - Four results were held back due to missing data. There were no results held back due to unfair means or explicitly held back.
- ATKT (Allowed to Keep Term):

- No students were reported to have failed with ATKT, indicating that all failures were outright failures.
- Quality of Examination Process:
 - The presence of results held back due to missing data suggests administrative or procedural issues that need to be addressed to ensure the accuracy and reliability of the examination process.
- Overall Implications:
 - The passing percentage is high, indicating a strong performance by the majority of students in the S.Y.B.A. Fourth Semester examination.
 - However, the presence of failed students and results held back due to missing data suggests areas where improvements may be needed in academic support and examination administration.

In summary, while the passing percentage is high, the presence of failed students and results held back due to missing data indicate areas where improvements may be needed to support student success and ensure the integrity of the examination process for the S.Y.B.A. Fourth Semester examination in the March/April-2020 term.

T.Y.B.A. Sixth Semester (B.A - Regular - P-2013) for the March/April-2020 term, here's a detailed analysis:

- Total Seats Generated: 16
- Total Students Appeared in Examination: 20
- Total Absentees: 0
- Total Passed: 15
- Total Failed (ATKT): 0
- Total Failed: 4
- Total Results Held Back: 2
 - Due to Unfair Means: 1
 - Due to Missing Data: 1
 - Explicitly Held Back: 0
- Passing Student Percentage: 75.00%

Analysis:

- Absenteeism:
 - There were no reported absentees during the examination.
- Passing Percentage:

- The passing percentage is calculated as the percentage of students who passed the examination out of those who appeared. In this case, the passing percentage is 75.00%, indicating that 15 out of 20 students passed the examination.
- Failure Rate:
 - Out of the students who appeared in the examination, 4 students failed.
- Results Held Back:
 - Two results were held back; one due to unfair means and one due to missing data. There were no results explicitly held back.
- ATKT (Allowed to Keep Term):
 - No students were reported to have failed with ATKT, indicating that all failures were outright failures.
- Quality of Examination Process:
 - The presence of results held back due to unfair means and missing data suggests potential issues with integrity and administrative processes that need to be addressed.
- Overall Implications:
 - The passing percentage is relatively high, indicating a strong performance by the majority of students in the T.Y.B.A. Sixth Semester examination.
 - However, the presence of failed students and results held back due to various reasons suggests areas where improvements may be needed in academic support and examination administration.

In summary, while the passing percentage is relatively high, the presence of failed students and results held back due to various reasons indicates areas where improvements may be needed to support student success and ensure the integrity of the examination process for the T.Y.B.A. Sixth Semester examination in the March/April-2020 term.

F.Y.B.Sc. Second Semester (B.Sc - Regular - P-2013) for the March/April-2020 term, here's a detailed analysis:

- Total Seats Generated: 139
- Total Students Appeared in Examination: 148
- Total Absentees: 0
- Total Passed: 122
- Total Failed (ATKT): 0
- Total Failed: 24
- Total Results Held Back: 2
 - Due to Unfair Means: 0
 - Due to Missing Data: 0

- Explicitly Held Back: 2
- Passing Student Percentage: 82.43%

Analysis:

- Absenteeism:
 - There were no reported absentees during the examination.
- Passing Percentage:
 - The passing percentage is calculated as the percentage of students who passed the examination out of those who appeared. In this case, the passing percentage is relatively high at 82.43%, indicating that 122 out of 148 students passed the examination.
- Failure Rate:
 - Out of the students who appeared in the examination, 24 students failed.
- Results Held Back:
 - Two results were held back, both explicitly. There were no results held back due to unfair means or missing data.
- ATKT (Allowed to Keep Term):
 - No students were reported to have failed with ATKT, indicating that all failures were outright failures.
- Quality of Examination Process:
 - The presence of two explicitly held back results suggests that there may have been specific issues with those results that required further investigation or review.
- Overall Implications:
 - The passing percentage is relatively high, indicating a majority of students successfully completing the F.Y.B.Sc. Second Semester examination.
 - However, the presence of failed students and explicitly held back results suggests areas where academic support and intervention may be necessary.

In summary, while the passing percentage is high, the presence of failed students and results held back indicates areas where improvements may be needed to support student success in the F.Y.B.Sc. Second Semester examination for the March/April-2020 term.

S.Y.B.Sc. Fourth Semester (B.Sc - Regular - P-2013) for the March/April-2020 term, here's a detailed analysis:

- Total Seats Generated: 78
- Total Students Appeared in Examination: 87
- Total Absentees: 0
- Total Passed: 73

- Total Failed (ATKT): 0
- Total Failed: 8
- Total Results Held Back: 6
 - Due to Unfair Means: 0
 - Due to Missing Data: 6
 - Explicitly Held Back: 6
- Passing Student Percentage: 83.91%

Analysis:

- Absenteeism:
 - There were no reported absentees during the examination.
- Passing Percentage:
 - The passing percentage is calculated as the percentage of students who passed the examination out of those who appeared. In this case, the passing percentage is relatively high at 83.91%, indicating that 73 out of 87 students passed the examination.
- Failure Rate:
 - Out of the students who appeared in the examination, 8 students failed.
- Results Held Back:
 - Six results were held back, all of which were explicitly held back due to missing data. No results were held back due to unfair means.
- ATKT (Allowed to Keep Term):
 - No students were reported to have failed with ATKT, indicating that all failures were outright failures.
- Quality of Examination Process:
 - The presence of results held back due to missing data suggests administrative or procedural issues that need to be addressed to ensure the accuracy and reliability of the examination process.
- Overall Implications:
 - The passing percentage is high, indicating a strong performance by the majority of students in the S.Y.B.Sc. Fourth Semester examination.
 - However, the presence of failed students and results held back due to missing data suggests areas where improvements may be needed in academic support and examination administration.

In summary, while the passing percentage is high, the presence of failed students and results held back due to missing data indicate areas where improvements may be needed to support student

success and ensure the integrity of the examination process for the S.Y.B.Sc. Fourth Semester examination in the March/April-2020 term.

T.Y.B.Sc. Sixth Semester (B.Sc - Regular - P-2013) for the March/April-2020 term, here's a detailed analysis:

- Total Seats Generated: 68
- Total Students Appeared in Examination: 71
- Total Absentees: 0
- Total Passed: 68
- Total Failed (ATKT): 0
- Total Failed: 3
- Total Results Held Back: 0
 - Due to Unfair Means: 0
 - Due to Missing Data: 0
 - Explicitly Held Back: 0
- Passing Student Percentage: 95.77%

Analysis:

- Absenteeism:
 - There were no reported absentees during the examination.
- Passing Percentage:
 - The passing percentage is calculated as the percentage of students who passed the examination out of those who appeared. In this case, the passing percentage is very high at 95.77%, indicating that 68 out of 71 students passed the examination.
- Failure Rate:
 - Out of the students who appeared in the examination, only 3 students failed.
- Results Held Back:
 - There were no results held back, neither due to unfair means, missing data, nor explicitly.
- ATKT (Allowed to Keep Term):
 - No students were reported to have failed with ATKT, indicating that all failures were outright failures.
- Quality of Examination Process:
 - The absence of results held back indicates a smooth and efficient examination process without any issues.
- Overall Implications:

- The passing percentage is exceptionally high, indicating a strong performance by the vast majority of students in the T.Y.B.Sc. Sixth Semester examination.
- The low failure rate further corroborates the high academic achievement of the students.
- The absence of results held back suggests that the examination process was conducted smoothly and without any complications.

In summary, the results for the T.Y.B.Sc. Sixth Semester examination in the March/April-2020 term indicate excellent academic performance by the students and a well-conducted examination process.

F.Y.B.A. Second Semester (B.A - Regular - P-2013) for the Apr/May-2021 exam event, here's a detailed analysis:

- Total Seats Generated: 18
- Total Students Appeared in Examination: 15 (Pass + Fail + Fail ATKT)
- Total Passed: 13
- Total Failed (ATKT): 2
- Total Failed: 2 (Failed + Failed ATKT)
- Total Absentees: 1
- Total Results Held Back: 11
- Institute Passing Percentage: 45%
- University Passing Percentage: Not provided

Analysis:

- Absenteeism:
 - There was 1 reported absentee during the examination.
- Passing Percentage:
 - The passing percentage for the institute is calculated as the percentage of students who passed the examination out of those who appeared. In this case, the institute passing percentage is 45%, indicating that 45% of the students passed the examination.
- Failure Rate:
 - Out of the students who appeared in the examination, 2 students failed outright, and 2 students failed with ATKT, resulting in a total of 4 failures.
- Results Held Back:
 - 11 results were held back, indicating potential issues or discrepancies in the examination process that required further review or clarification.
- Overall Implications:
 - The passing percentage of 45% suggests that there is room for improvement in student performance.
 - The presence of failed students and results held back highlights areas where academic support and examination administration may need enhancement.
 - The relatively high number of results held back may indicate potential issues with the examination process that require investigation and resolution.

In summary, while there were some students who passed the examination, the presence of failures and results held back indicates areas where improvements may be necessary to ensure the academic

success and integrity of the examination process for the F.Y.B.A. Second Semester in the Apr/May-2021 exam event.

S.Y.B.A. Fourth Semester (B.A - Regular - P-2013) for the Apr/May-2021 exam event, here's a detailed analysis:

- Total Seats Generated: 21
- Total Students Appeared in Examination: 13 (Pass + Fail + Fail ATKT)
- Total Passed: 8
- Total Failed (ATKT): 2
- Total Failed: 2 (Failed + Failed ATKT)
- Total Absentees: 3
- Total Results Held Back: 38
- Institute Passing Percentage: Not provided
- University Passing Percentage: 39%

Analysis:

- Absenteeism:
 - There were 3 reported absentees during the examination.
- Passing Percentage:
 - The passing percentage for the university is calculated as the percentage of students who passed the examination out of those who appeared. In this case, the university passing percentage is 39%.
- Failure Rate:
 - Out of the students who appeared in the examination, 2 students failed outright, and 2 students failed with ATKT, resulting in a total of 4 failures.
- Results Held Back:
 - 38 results were held back, indicating potential issues or discrepancies in the examination process that required further review or clarification.
- Overall Implications:
 - The passing percentage of 39% suggests that there is room for improvement in student performance.
 - The presence of failed students and results held back highlights areas where academic support and examination administration may need enhancement.
 - The high number of results held back may indicate potential issues with the examination process that require investigation and resolution.

In summary, while there were some students who passed the examination, the presence of failures and results held back indicates areas where improvements may be necessary to ensure the academic

success and integrity of the examination process for the S.Y.B.A. Fourth Semester in the Apr/May-2021 exam event.

T.Y.B.A. Sixth Semester (B.A - Regular - P-2013) for the Apr/May-2021 exam event, here's a detailed analysis:

- Total Seats Generated: 12
- Total Students Appeared in Examination: 8 (Pass + Fail + Fail ATKT)
- Total Passed: 8
- Total Failed (ATKT): 0
- Total Failed: 0 (Failed + Failed ATKT)
- Total Absentees: 0
- Total Results Held Back: 33
- Institute Passing Percentage: Not provided
- University Passing Percentage: 44%

Analysis:

- Absenteeism:
 - There were no reported absentees during the examination.
- Passing Percentage:
 - The passing percentage for the university is calculated as the percentage of students who passed the examination out of those who appeared. In this case, the university passing percentage is 44%.
- Failure Rate:
 - Since there were no failures reported, both outright and with ATKT, the failure rate is 0%.
- Results Held Back:
 - 33 results were held back, indicating potential issues or discrepancies in the examination process that required further review or clarification.
- Overall Implications:
 - The passing percentage of 44% suggests that there is room for improvement in student performance.
 - The high number of results held back may indicate potential issues with the examination process that require investigation and resolution.

In summary, while all students passed the examination, the presence of a significant number of results held back indicates areas where improvements may be necessary to ensure the academic success and integrity of the examination process for the T.Y.B.A. Sixth Semester in the Apr/May-2021 exam event.

F.Y.B.Sc. Second Semester (B.Sc - Regular - P-2013) for the Mar/Apr-2021 exam event, here's a detailed analysis:

- Total Seats Generated: 59
- Total Students Appeared in Examination: 34 (Pass + Fail + Fail ATKT)
- Total Passed: 33
- Total Failed (ATKT): 1
- Total Failed: 0 (Failed + Failed ATKT)
- Total Absentees: 42
- Total Results Held Back: 51
- Institute Passing Percentage: Not provided
- University Passing Percentage: Not provided

Analysis:

- Absenteeism:
 - There were 42 reported absentees during the examination.
- Passing Percentage:
 - The passing percentage is not provided.
- Failure Rate:
 - Only 1 student failed with ATKT, indicating a low failure rate.
- Results Held Back:
 - 51 results were held back, indicating potential issues or discrepancies in the examination process that required further review or clarification.
- Overall Implications:
 - The presence of a significant number of absentees and results held back indicates potential issues with the examination process or student attendance.
 - While the failure rate is low, the presence of students with ATKT suggests areas where academic support may be needed.
 - The high number of results held back may indicate potential issues with the examination process that require investigation and resolution.

In summary, the results for the F.Y.B.Sc. Second Semester examination in the Mar/Apr-2021 exam event indicate areas where improvements may be necessary to ensure the academic success and integrity of the examination process. Further analysis could be conducted with additional data, such as passing percentages, to provide a more comprehensive understanding of the results.

S.Y.B.Sc. Fourth Semester (B.Sc - Regular - P-2013) for the Mar/Apr-2021 exam event, here's a detailed analysis:

- Total Seats Generated: 81
- Total Students Appeared in Examination: 37 (Pass + Fail + Fail ATKT)
- Total Passed: 30
- Total Failed (ATKT): 7
- Total Failed: 0 (Failed + Failed ATKT)
- Total Absentees: 54
- Total Results Held Back: 48
- Institute Passing Percentage: Not provided
- University Passing Percentage: Not provided

Analysis:

- Absenteeism:
 - There were 54 reported absentees during the examination.
- Passing Percentage:
 - The passing percentage is not provided.
- Failure Rate:
 - 7 students failed with ATKT, while no students failed outright.
- Results Held Back:
 - 48 results were held back, indicating potential issues or discrepancies in the examination process that required further review or clarification.
- Overall Implications:
 - The presence of a significant number of absentees and results held back indicates potential issues with the examination process or student attendance.
 - The failure rate is relatively low, but the presence of students with ATKT suggests areas where academic support may be needed.
 - The high number of results held back may indicate potential issues with the examination process that require investigation and resolution.

In summary, the results for the S.Y.B.Sc. Fourth Semester examination in the Mar/Apr-2021 exam event indicate areas where improvements may be necessary to ensure the academic success and integrity of the examination process. Further analysis could be conducted with additional data, such as passing percentages, to provide a more comprehensive understanding of the results.

T.Y.B.Sc. Sixth Semester (B.Sc - Regular - P-2013) for the Mar/Apr-2021 exam event, here's a detailed analysis:

- Total Seats Generated: 57
- Total Students Appeared in Examination: 28 (Pass + Fail + Fail ATKT)
- Total Passed: 28
- Total Failed (ATKT): 0
- Total Failed: 0 (Failed + Failed ATKT)
- Total Absentees: 50
- Total Results Held Back: 58
- Institute Passing Percentage: Not provided
- University Passing Percentage: Not provided

Analysis:

- Absenteeism:
 - There were 50 reported absentees during the examination.
- Passing Percentage:
 - The passing percentage is not provided.
- Failure Rate:
 - There were no students who failed outright or with ATKT.
- Results Held Back:
 - 58 results were held back, indicating potential issues or discrepancies in the examination process that required further review or clarification.
- Overall Implications:
 - The presence of a significant number of absentees and results held back indicates potential issues with the examination process or student attendance.
 - While all students passed the examination, the high number of results held back may indicate potential issues with the examination process that require investigation and resolution.

In summary, the results for the T.Y.B.Sc. Sixth Semester examination in the Mar/Apr-2021 exam event indicate areas where improvements may be necessary to ensure the academic success and integrity of the examination process. Further analysis could be conducted with additional data, such as passing percentages, to provide a more comprehensive understanding of the results.

F.Y.B.A. Second Semester (B.A - Regular - P-2013) for the Mar/Apr-2022 exam event, here's a detailed analysis:

- Total Seats Generated: 31
- Total Students Appeared in Examination: 30 (Pass + Fail + Fail ATKT)
- Total Passed: 17
- Total Failed (ATKT): 2
- Total Failed: 0 (Failed + Failed ATKT)
- Total Absentees: 1
- Total Results Held Back: 35
- Institute Passing Percentage: Not provided
- University Passing Percentage: Not provided

Analysis:

- Absenteeism:
 - There was 1 reported absentee during the examination.
- Passing Percentage:
 - The passing percentage is not provided.
- Failure Rate:
 - 2 students failed with ATKT, while no students failed outright.
- Results Held Back:
 - 35 results were held back, indicating potential issues or discrepancies in the examination process that required further review or clarification.
- Overall Implications:
 - The presence of a single absentee and a moderate number of results held back suggests potential issues with the examination process.
 - The failure rate is relatively low, but the presence of students with ATKT indicates areas where academic support may be needed.
 - The high number of results held back may indicate potential issues with the examination process that require investigation and resolution.

In summary, the results for the F.Y.B.A. Second Semester examination in the Mar/Apr-2022 exam event suggest areas where improvements may be necessary to ensure the academic success and integrity of the examination process. Further analysis could be conducted with additional data, such as passing percentages, to provide a more comprehensive understanding of the results.

S.Y.B.A. Fourth Semester (B.A - Regular - P-2013) for the Mar/Apr-2022 exam event, here's a detailed analysis:

- Total Seats Generated: 9
- Total Students Appeared in Examination: 8 (Pass + Fail + Fail ATKT)
- Total Passed: 5
- Total Failed (ATKT): 2
- Total Failed: 0 (Failed + Failed ATKT)
- Total Absentees: 1
- Total Results Held Back: 11
- Institute Passing Percentage: Not provided
- University Passing Percentage: 47%

Analysis:

- Absenteeism:
 - There was 1 reported absentee during the examination.
- Passing Percentage:
 - The passing percentage is not provided.
- Failure Rate:
 - 2 students failed with ATKT, while no students failed outright.
- Results Held Back:
 - 11 results were held back, indicating potential issues or discrepancies in the examination process that required further review or clarification.
- Overall Implications:
 - The presence of a single absentee and a moderate number of results held back suggests potential issues with the examination process.
 - The failure rate is relatively low, but the presence of students with ATKT indicates areas where academic support may be needed.
 - The passing percentage for the university is 47%, which indicates that 47% of students who appeared in the examination passed.

In summary, the results for the S.Y.B.A. Fourth Semester examination in the Mar/Apr-2022 exam event suggest areas where improvements may be necessary to ensure the academic success and integrity of the examination process. Further analysis could be conducted with additional data, such as passing percentages, to provide a more comprehensive understanding of the results.

T.Y.B.A. Sixth Semester (B.A - Regular - P-2013) for the Mar/Apr-2022 exam event, here's a detailed analysis:

- Total Seats Generated: 13

- Total Students Appeared in Examination: 12 (Pass + Fail + Fail ATKT)
- Total Passed: 5
- Total Failed (ATKT): 0
- Total Failed: 0 (Failed + Failed ATKT)
- Total Absentees: 3
- Total Results Held Back: 53
- Institute Passing Percentage: Not provided
- University Passing Percentage: Not provided

Analysis:

- Absenteeism:
 - There were 3 reported absentees during the examination.
- Passing Percentage:
 - The passing percentage is not provided.
- Failure Rate:
 - There were no students who failed outright or with ATKT.
- Results Held Back:
 - 53 results were held back, indicating potential issues or discrepancies in the examination process that required further review or clarification.
- Overall Implications:
 - The presence of absentees and a high number of results held back suggests potential issues with the examination process.
 - While all students passed the examination, the high number of results held back may indicate potential issues with the examination process that require investigation and resolution.

In summary, the results for the T.Y.B.A. Sixth Semester examination in the Mar/Apr-2022 exam event suggest areas where improvements may be necessary to ensure the academic success and integrity of the examination process. Further analysis could be conducted with additional data, such as passing percentages, to provide a more comprehensive understanding of the results.

F.Y.B.Sc. Second Semester (B.Sc - Regular - P-2013) for the Mar/Apr-2022 exam event, here's the analysis:

- Total Seats Generated: 82
- Total Students Appeared in Examination: 20 (Pass + Fail + Fail ATKT)
- Total Passed: 14
- Total Failed (ATKT): 5
- Total Failed: 0 (Failed + Failed ATKT)

- Total Absentees: 1
- Total Results Held Back: 75
- Institute Passing Percentage: Not provided
- University Passing Percentage: Not provided

Analysis:

- Absenteeism:
 - There was 1 reported absentee during the examination.
- Passing Percentage:
 - The passing percentage is not provided.
- Failure Rate:
 - 5 students failed with ATKT, while no students failed outright.
- Results Held Back:
 - 75 results were held back, indicating potential issues or discrepancies in the examination process that required further review or clarification.
- Overall Implications:
 - The presence of a single absentee and a high number of results held back suggests potential issues with the examination process.
 - The failure rate is relatively high, with 25% of the students failing with ATKT.
 - The high number of results held back may indicate potential issues with the examination process that require investigation and resolution.

In summary, the results for the F.Y.B.Sc. Second Semester examination in the Mar/Apr-2022 exam event suggest areas where improvements may be necessary to ensure the academic success and integrity of the examination process. Further analysis could be conducted with additional data, such as passing percentages, to provide a more comprehensive understanding of the results.

S.Y.B.Sc. Fourth Semester (B.Sc - Regular - P-2013) for the Mar/Apr-2022 exam event, here's the analysis:

- Total Seats Generated: 55
- Total Students Appeared in Examination: 13 (Pass + Fail + Fail ATKT)
- Total Passed: 12
- Total Failed (ATKT): 0
- Total Failed: 0 (Failed + Failed ATKT)
- Total Absentees: 1
- Total Results Held Back: 76
- Institute Passing Percentage: Not provided
- University Passing Percentage: Not provided

Analysis:

- Absenteeism:
 - There was 1 reported absentee during the examination.
- Passing Percentage:
 - The passing percentage is not provided.
- Failure Rate:
 - There were no students who failed outright or with ATKKT.
- Results Held Back:
 - 76 results were held back, indicating potential issues or discrepancies in the examination process that required further review or clarification.
- Overall Implications:
 - The presence of a single absentee and a high number of results held back suggests potential issues with the examination process.
 - All students passed the examination, indicating a 100% passing rate.
 - The high number of results held back may indicate potential issues with the examination process that require investigation and resolution.

In summary, the results for the S.Y.B.Sc. Fourth Semester examination in the Mar/Apr-2022 exam event suggest areas where improvements may be necessary to ensure the academic success and integrity of the examination process. Further analysis could be conducted with additional data, such as passing percentages, to provide a more comprehensive understanding of the results.

T.Y.B.Sc. Sixth Semester (B.Sc - Regular - P-2013) for the Mar/Apr-2022 exam event, here's the analysis:

- Total Seats Generated: 62
- Total Students Appeared in Examination: 17 (Pass + Fail + Fail ATKKT)
- Total Passed: 16
- Total Failed (ATKKT): 1
- Total Failed: 0 (Failed + Failed ATKKT)
- Total Absentees: 0
- Total Results Held Back: 72
- Institute Passing Percentage: Not provided
- University Passing Percentage: Not provided

Analysis:

- Absenteeism:
 - There were no reported absentees during the examination.
- Passing Percentage:

- The passing percentage is not provided.
- Failure Rate:
 - 1 student failed with ATKT, while no students failed outright.
- Results Held Back:
 - 72 results were held back, indicating potential issues or discrepancies in the examination process that required further review or clarification.
- Overall Implications:
 - All but one student passed the examination, resulting in a high passing rate.
 - The presence of a student with ATKT indicates an area where academic support may be needed.
 - The high number of results held back may indicate potential issues with the examination process that require investigation and resolution.

In summary, the results for the T.Y.B.Sc. Sixth Semester examination in the Mar/Apr-2022 exam event suggest areas where improvements may be necessary to ensure the academic success and integrity of the examination process. Further analysis could be conducted with additional data, such as passing percentages, to provide a more comprehensive understanding of the results.
