- a) Long-term recovery planning
 - b) Public awareness campaigns
 - c) Immediate response to disasters
 - d) Research on disaster impacts

PART- B

30 Marks

1. Explain the role of early warning systems in disaster management, citing examples of their effectiveness.
2. Discuss the importance of community involvement in disaster preparedness and response. Provide examples of successful community-based initiatives.
3. Describe the key components of a disaster recovery plan, highlighting the importance of a phased approach.

Project Work Question

50 Marks

14. Develop a comprehensive disaster management plan for a hypothetical community or region. Include risk assessment, mitigation strategies, community involvement, emergency response protocols, and long-term recovery planning. Present the plan in a detailed report format, providing justifications for each component.

Note : The marks allocated for the project work question may vary based on the depth and quality of the response.
