Certificate Course on Sustainable Development Goals (SDGs)

Course Code: HISSCI

Course Objective: The Certificate Course on Research Methodology aims to equip participants with the fundamental skills and knowledge required to conduct effective research in the field of history. Participants will learn essential techniques, methodologies, and approaches necessary for conducting rigorous historical research.

Course Syllabus:

1. Introduction to Sustainable Development Goals (SDGs)
Overview of the 17 SDGs
Historical context and evolution of SDGs
Importance and relevance of SDGs in contemporary society
2. Understanding the Interconnectedness of SDGs
Exploration of the interlinkages between different SDGs
Systems thinking and the holistic approach to sustainable development
3. Global Context and Commitments
International agreements and frameworks related to SDGs (e.g., Paris Agreement, Agenda 2030)
Role of governments, NGOs, and businesses in achieving SDGs
4. Social Dimension of Sustainable Development
Poverty alleviation and social inclusion
Gender equality and empowerment
Quality education and healthcare for all
5. Environmental Sustainability
Climate action and mitigation strategies
Biodiversity conservation and ecosystem restoration
Sustainable resource management
6. Economic Prosperity with Equity
Sustainable and inclusive economic growth
Decent work and economic opportunities
Responsible consumption and production
7. Partnerships for Sustainable Development
Collaboration and partnerships at local, national, and global levels
Engaging communities and stakeholders in SDG implementation

Course Objectives :

1. Provide participants with a comprehensive understanding of the 17 Sustainable Development Goals.
2. Foster awareness of the interconnected nature of the SDGs and the need for a holistic approach to sustainable development.
3. Explore the global context, commitments, and frameworks guiding the implementation of SDGs.
4. Examine the social, environmental, and economic dimensions of sustainable development.
5. Equip participants with the knowledge to contribute to SDG implementation in various sectors.
6. Encourage critical thinking and problem-solving skills in the context of sustainable development challenges.
7. Facilitate discussions on the role of individuals, communities, and organizations in achieving SDGs.

Course Outcomes :

1. Participants will possess a deep understanding of the principles and objectives of the 17 SDGs.
2. Participants will be able to analyze and articulate the interconnections between different SDGs.
3. Graduates of the course will be familiar with global commitments and frameworks guiding sustainable development efforts.
4. Participants will have the knowledge to promote social, environmental, and economic sustainability in their respective spheres.
5. The course will empower individuals to actively contribute to SDG implementation through informed decision-making and advocacy.
6. Graduates will be capable of engaging in collaborative efforts and partnerships to address sustainable development challenges.
7. Participants will develop a sense of responsibility and commitment to promoting a sustainable and equitable future.

Duration: 30 Hours

The course will be conducted over a period of 30 hours, consisting of lectures, discussions, practical exercises, and assignments, providing participants with a comprehensive understanding of research methodology in history.

Course Coordinator: Dr. U.G. Sonkamble

Certificate of Completion will be awarded to participants who successfully fulfill the course requirements and assessments.

(Note: Course content and schedule are subject to change based on instructor discretion and participant needs.)
